21st Century Community Learning Centers, Title IV, Part B Alignment

21st Century Community Learning Centers, Title IV, Part B Statutes	Alignment	Applications
Remedial Education and Academic Enrichment		
Funds may be used to carry out a broad array before and after school activities (including during summer recess periods) that advance student academic achievement, including remedial education activities and academic enrichment learning programs, including providing additional assistance to students to allow students to improve their academic achievement (Sec 4205. Local Activities. (a)(1))	There are a variety of ways academic achievement can be impacted using the eColor System. The system can be used to post academic standards and display rubrics and grading expectations. Educators can use the tools to create multiple formats of assessments, maximizing the potential to identify student strengths and weaknesses while providing an informal assessment of the student's learning style.	• Recognize individual student progress through the creation of customized posters • Creaate interactive learning centers with large graphic organizers and reinforce key concepts by enlarging strategies and reminders • Foster differentiated instruction by creating differentiated tools such as enlarged worksheets and learning centers geared toward specific skills or targeted needs, etc.
Reading, Math, and Science Education Activities		
Funds may be used to carry out a broad array of before and after school activities (including during summer recess periods) that advance student academic achievement, including math and science education activities. (Sec 4205. Local Activities (a)(2))	Using the eColor System, academic standards for reading, math, and science can be posted in every classroom. Teachers can display rubrics and grading expectations. Student progress can be recognized with customized posters. The eColor System can be used to create visual aids to reinforce key objectives in math, science, and reading.	• Motivate students with exciting visual aids personalized to curriculum content • Develop logistical charts and post multi-step problem-solving process posters
Entrepreneurial Education Programs		
Funds may be used to carry out a broad array of before and after school activities (including during summer recess periods) that advance student academic achievement, including entrepreneurial activities. (Sec 4025. Local Activities (a)(4))	With the eColor System, entrepreneurial student-based programs can be developed. Students can use the system to create, sell, and promote their ideas or programs. Outcomes of this project include increasing students' feelings of self-sufficiency and accomplishment while preparing them for skills needed in the 21st Century. Through this small business opportunity, students learn how to run a small business enterprise, how to develop a business plan, how to utilize technology in the performance of business tasks, and how to utilize a variety of interactions within the business community. This allows students to gain real-world experience that can be documents on college applications and resumes.	• Help schools raise funds through the creation and sales of customized posters and banners for profit (school dances, graduation, athletic teams/players, birthdays, community business sponsors, etc.) • Allow students to raise funds through the creation of customized photo booths and props for special events • Allow students to create and sell customize school mascot/logo-themed posters

Programs Emphasizing After School Activities for Limited English Proficient Students		
Funds may be used to carry out a broad array of before and after school activities (including during summer recess periods) that advance student academic achievement, including programs that provide after school activities for limited English proficient students that emphasize language skills and academic achievement (Sec 4025. Local Activities (a)(6))	There are a variety of ways academic achievement can be impacted using the eColor System. The system can be used to post academic standards and display rubrics and grading expectations. Language skills can be supported through the creation of a word wall and subject-specific visual aids.	• Support limited English proficient students with bi-lingual visual aids that can promote alphabet recognition and frequently used English words • Recognize individual student progress through the creation of customized posters
Telecommunications and Technology Education		
Funds may be used to carry out a broad array of before and after school activities (including during summer recess periods) that advance student academic achievement, including telecommunications and technology education programs (Sec 4025. Local Activities (a)(8))	The eColor System is easy-to-use and students can learn the technology with proficiency, increasing their feelings of self-sufficiency and accomplishment while preparing them for skills needed in the 21st Century. The eColor System can be used to advance the integration of technology in the classroom by teaching students how to use the Poster Artist Design Station to product academic products and to conduct a real-world business.	• Expose students to advanced technology and accompanying software to design their own custom posters, banners, and signs • Encourage students to explore their own uses of technology • Foster both peer and self-learning • Reinforce the skills of following computer directions and learning and practicing how to use graphic design technology
Parental Involvement and Family Literacy		
Funds may be used to carry out a broad array of before and after school activities (including during summer recess periods) that advance student academic achievement, including programs that promote parental involvement and family literacy. (Sec 4025. Local Activities (a)(10))	The eColor System can be used to support enhanced parental involvement through the creation of posters encouraging volunteering and Parent Teacher Organizations. Posters and banners increase parental knowledge of school events and family literacy.	• Increase awareness of community literacy courses or activities for parents with posters • Create school signage to assist parents
Programs Focused on Non-Academic Areas		
Funds may be used to carry out a broad array of before and after school activities (including during summer recess periods) that advance student academic achievement, including drug and violence prevention programs, and character education programs. (Sec 4025. Local Activities (a)(12))	The eColor System can be used to promote awareness of drug and violence prevention programs or counseling programs.	• Use the eColor System to post anti-bullying and "Drug Free" messages throughout the school, creating posters to define and encourage positive attributes • Reward good character and behavior through the use of customized posters and signs
